- ## *Soft skills*

Communication, Teamwork, Problem-Solving, Critical-thinking, Creativity, Time Management, Adaptability.

- ## *Skills and Experience*

1. **Volunteer at Hermes – (2023–2024)**
   This experience helped me handle new challenges and build strong connections in a busy and changing environment. I was part of the Creative Thinking and Public Relations team, where I helped to bring ideas to life and build positive communication.

2. **Hermes Hackathon 2023 – Green Scripters**
   It is the concept for a revolutionary recycling platform, where users get rewarded for their actions. Web app developed using: Python, JavaScript, HTML, CSS, Flask, Pyzbar.

3. **Hermes Hackathon 2024 – AllSafe**
   We created a Chrome Extension that can help you determine if an email or link is phishing and a site for this extension with an interactive 2D Game. Developed using: Python, JavaScript, HTML, CSS, React, Flask.

4. **Video Editor at Live Slow Production – (2021 – Present)**
   I have developed skills in editing, color grading, adding special effects, and audio synchronization, ensuring that each final video perfectly reflects the emotion and beauty of the moment.

5. **Graphic Designer – 5+ years**
   I worked on projects from simple Photoshop edits to complex compositions in Premiere Pro, Blender, and After Effects. I specialize in creating engaging visuals, animations, and 3D models.

6. **Language Proficiency – English – B2 Level**
   My language proficiency allows me to communicate effectively in English, both verbally and in writing.

7. **Cashier at Kaufland – (Aug 2024 – Oct 2024)**
   In this position, I have developed essential skills in effective customer communication and adapting to a work schedule.
